INTRODUCTION

(2)

Welcome to our *MOTORCYCLE PARTS & SERVICES CATALOGUE*.

We have been in business for over 40 years, offering the highest standard of professional care and service for your Magnetos & Dynamos as fitted to Veteran, Vintage & Classic Motorcycles.

(NB. Our products are **not** to be used on Aircraft or Boats.)
(We regret we are unable to trade with the US or Canada.)

Our Overhaul Service is second-to-none, based on wide knowledge, specialist skills and years of experience. We are happy to honour our two-year Guarantee, and help you sort out any problems.

Our extensive Parts List covers all the common Lucas, BTH and Miller Magnetos and Dynamos, and also some of the more obscure ones! We also supply JG Electronic Regulators, Magneto Timing Detectors, ATDs, Cam Rings, and offer Coil Rewinding. Further details are in this Catalogue, and also on our website www.davelindsley.co.uk.

"It is our aim and pleasure to provide a speedy, reliable and friendly service."

MAGNETO & DYNAMO OVERHAUL SERVICE

(3)

Should you wish us to overhaul a Magneto or Dynamo, this is the procedure:

- 1) Contact us to ensure we are able to undertake the work on your unit.
- 2) Send the unit to us at our Leominster workshop.
(Please pack it up well in a large sturdy box. We suggest wrapping the unit in several layers of corrugated cardboard, then nestling it firmly in the box, using lots of crumpled newspaper. Bubble wrap is okay but, again, use lots of it. **Do not** use shredded paper or polystyrene chips, as these shift about, exposing the unit to damage. Seal the box well and address clearly to us. Also, put your name and address on the outside of the box as 'sender'.
Please enclose your contact details, and any relevant information about the unit.)

Or you can deliver it in person (please make an appointment).
- 3) We will test it and strip it, then contact you with details of the work required, an estimate of the cost, and completion date.
- 3) No work is done until you approve the estimate.
- 4) When the job is completed, we will contact you to finalise payment details.
- 5) We arrange delivery / collection at your convenience.
- 6) Your overhauled unit will carry a 2-year guarantee. (This is very flexible, as we realise many Magnetos and Dynamos are not fitted to the machine immediately because, for example, of restoration of the rest of the machine.)

MAGNETO ARMATURE REWINDING SERVICE

If you send us your Armature, we will rewind the Coil and fit a new Condenser. We carry out this service in-house. We employ a skilled and experienced coil-winder who uses a modern coil-winding machine and the best of materials.

The Armature Rewind will carry a 2-year guarantee.

If your Armature is mechanically damaged, we can repair/replace it for a supplement.

Description and DL No.s can be found as the first items on the various Magneto Parts Lists on Pages 4, 5, 6 & 7 (Price List p.11)

CAM RINGS (SPECIALS)

In addition to the Cam Rings listed in the Parts tables in this Catalogue, we can manufacture Cam Rings of many other types, eg. THOMPSON, BOSCH, BENNETT, ML, CAV etc.

These can be Single, 180°, 45°, 50°, 60°, 90° etc.

Please contact us if you require any Special Cam Ring, and we will quote.

(In some cases, it may be necessary to leave your Magneto with us so we can set up your new Cam Ring to give accurate internal timing.)

LUCAS & MILLER DYNAMO PARTS

(8)

NB For most types of Lucas Dynamos, we can provide NEW Armatures (British made)
(not Exchange – there is no need to send your old one).

Other makes of Dynamo Armatures and Field Coils can be rewound. (Please enquire.)

J.G. ELECTRONIC REGULATORS

(9)

The J.G. Electronic Regulator (6/12 volt Conversion) was invented in 1976 as the world's first Regulator to enable a 6 volt Motorcycle Dynamo to work on 12 volts. There is also a 6 volt version if you wish to leave your Motorcycle on 6 volts. Both are available in Positive or Negative Earth.

We have been the sole distributor of the J.G. Unit for 40 years, and have sold over 40,000 to customers worldwide.

DESCRIPTION	DL NO.
6 VOLT POSITIVE EARTH JG UNIT (IN DIE CAST BOX)	80
6 VOLT NEGATIVE EARTH JG UNIT (IN DIE CAST BOX)	81
6/12 VOLT POSITIVE EARTH JG UNIT (IN DIE CAST BOX)	82
6/12 VOLT NEGATIVE EARTH JG UNIT (IN DIE CAST BOX)	83

If you have a MILLER system, then we offer a 6 volt and a 6/12 volt unit fitted on a replica Stainless Steel Base with metal cover. These are both Negative Earth.

DESCRIPTION	DL NO.
6 VOLT "MILLER" TYPE JG UNIT	84
6/12 VOLT "MILLER" TYPE JG UNIT	85

(NOTE: If you have the original Miller base & cover, send us the base and we will electroplate the base and fit the "MILLER" type JG Unit.

MAGNETO TIMING DETECTOR

At last, a device which allows you to determine the exact moment that the points on a Magneto open to create the ignition spark. Forget the 1 thou feeler gauge and the cigarette paper! With this unit, you can set the timing precisely, giving better engine performance. DL Part No. 88 .
